

AI Readiness Assessment Report

Organization: Technology Solutions, Inc.

August 22, 2025

Assessment Date

Executive Summary

62/100

Overall Score

Fair

Readiness Level

5

Areas to Improve

Fair AI readiness with foundation in place but improvement needed. Focus on the lower-scoring dimensions to maximize AI implementation success.

Performance Overview

Top 3 Action Items

1

Team AI Literacy

2.5/5

Launch comprehensive AI training program for key staff members

2

System Integration

2.5/5

Evaluate current system APIs and plan integration roadmap

3

Technology Infrastructure

2.7/5

Audit current infrastructure and plan scalable AI computing resources

Detailed Dimension Analysis

Technology Infrastructure

2.7/5

Evaluate current infrastructure capabilities and plan for AI-specific resources.

Data Quality & Access

4.7/5

Leverage existing data governance to accelerate AI projects.

Team AI Literacy

2.5/5

Invest in targeted AI training programs for key team members.

System Integration

2.5/5

Review integration capabilities and plan for AI system compatibility.

Budget & Resources

3.0/5

Allocate additional resources for AI infrastructure and training.

Data Security & Privacy

3.3/5

Strengthen cybersecurity controls, improve privacy compliance, and implement data anonymization frameworks for AI projects.
